Johnnie, Norma and John Richardson welcome you.

Richardson Recreational Ranch is a family owned and operated enterprise, providing year-round family recreation. A working cattle ranch, supplemented by recreational activities. Highlighting the ranch are world-famous agate beds, featuring thundereggs and ledge agate material. Rock from all over the world can be found in our rock shop. Our goal is to provide "Fun for Everyone" - rockhounding, photography, camping, hunting (public shooting preserve), a visit to our game farm. Always open to provide fun for all!

See You Back at the Ranch!

Scenes such as this are common in the agate bed area. A photographer's paradise.

After an exciting day of digging you can relax at one of the fishing spots.
